

OMNeT++ Community Summit 2016, Brno University of Technology (FIT-BUT), Sept 15-16.

An Update on INET Development

Rudolf Hornig

Areas of Work

We are working on:

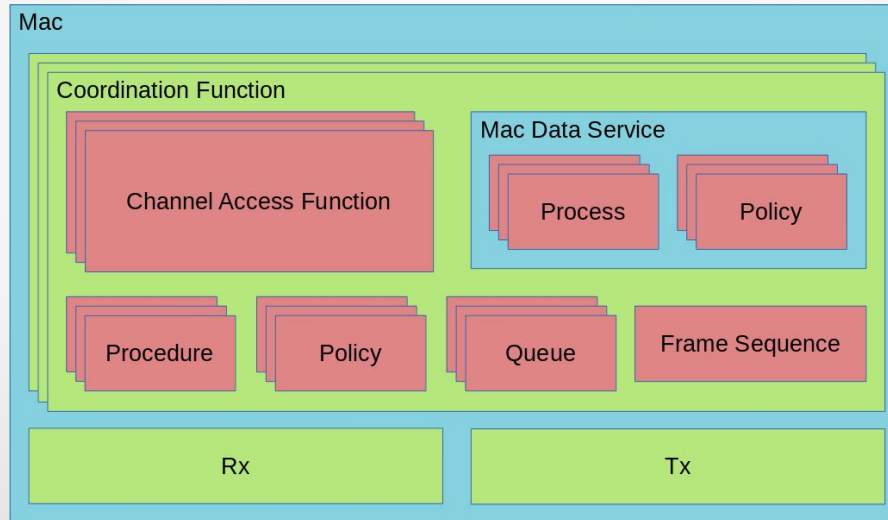

- Framework Infrastructure
- New protocols
- Documentation

Framework Infrastructure Development

- Wireless infrastructure ✓ (in INET 3.2)
- Visualization (2D/3D) ✓ (in INET 3.4)
- StandardHost restructuring ✓ (unreleased - to appear in INET 4.0)
- Cross-layer communication (packet tags) ↻ (in progress)
- Flat packets 🕒 (planned)
- Mobility refactoring 🕒 (planned)

New Protocols

- IEEE 802.11 MAC
 - Full-blown, modular and extensible MAC, supporting experimentation
 - Status: in progress, see separate presentation: *An outline of the new IEEE 802.11 model in the INET framework*

Documentation

We are working on two kind of documents:

- Tutorials
- Showcase simulation examples

The INET Manual is put on hold. Why?

- A comprehensive manual would take too much effort
- Tutorials are a more effective way to convey knowledge in specific areas

Tutorials

- Wireless Tutorial ✓ (released in INET 3.4 and online)
- IoT Tutorial 🕒 (planned) 👤 (*help needed!*)
- **Sensor Networks Tutorial** 🕒 (planned) 👤 (*help needed!*)
- Advanced Wireless Tutorial 🕒 (planned)
- Visualization Tutorial 🕒 (planned)
- WiFi Tutorial 🕒 (planned)
- Routing Tutorial 🕒 (planned) 👤 (*help needed!*)
- IPv4Configurator Tutorial 🕒 (planned)
- Energy Management Tutorial 🕒 (planned) 👤 (*help needed!*)
- Ideas?

Showcase Examples: What Are They?

Current example simulations were mostly born as tests for some model or feature, and not designed for educational value...

Showcase examples:

- Contain a clear problem statement
- Simulation model has clear focus, and strives for simplicity
- Documentation complete with:
 - model description
 - expected results
 - explanation of what happened
 - result analysis
- Reasonably self-contained, ready for publishing online

Currently Implemented Showcase Examples

- Wifi Throughput ✓
- Wifi Handover ✓
- Wifi Hidden Node ✓
- Wifi Rate Control ✓
- Wifi Power Consumption ✓
- Wifi Error Rate ✓
- Wireless Radio Level of Detail ✓
- Ideas?

Demo

Showing:

- Wireless Tutorial (<https://omnetpp.org/doc/inet/api-current/tutorials/wireless>)
- some Showcases

OMNeT++ Community Summit 2016, Brno University of Technology (FIT-BUT), Sept 15-16.

Thank you
